KYIV, 20 NOVEMBER: MISSILES ON THE BRIDGES AND THE WATER UTILITY

On the night of 19–20 November 2026 Russia struck Ukraine with cruise and ballistic missiles and more than 400 drones, most of the ballistic missiles aimed at Kyiv. In the capital three bridges over the Dnipro and a facility of the city water utility were hit; two of the utility's workers were among the 7 people killed, and 17 were injured. Parts of the city lost power and water pressure. The strike came a day after Russia's President said Russia would answer Ukraine's strikes on the Kerch bridge.

BOTTOM LINE

A city's crossings and its water. Russian missiles damaged three of Kyiv's bridges over the Dnipro — the Podilsko-Voskresenskyi, the Southern, struck for the second time in three days, and the Darnytskyi — and a facility of the city water utility; water pressure fell in five districts and power was cut in parts of five (V. Klitschko; Kyivvodokanal; DTEK).

The people who keep it running. Seven people were killed in Kyiv and 17 injured; two of the dead and seven of the injured worked for the water utility (V. Klitschko, 15:20; Kyivvodokanal).

A whole country, one night. The Air Force counted 84 cruise missiles, 404 drones and ballistic missiles whose number it did not publish; across Ukraine the Prime Minister counted 8 killed and 28 injured by 10:30, including two people killed at a railway station in Lviv. Nuclear power plants had to cut output (Air Force; Prime Minister S. Koretskyi; Ministry of Energy).

RUSSIA: "MILITARY-INDUSTRIAL ENTERPRISES" AND TRANSPORT INFRASTRUCTURE — POSITION

Established. On the night of 19–20 November 2026 Russian missiles and drones killed 7 people in Kyiv, among them two workers of the city water utility, injured 17, and damaged three bridges over the Dnipro and a water-utility facility (Ukrainian authorities). The UN Commission of Inquiry has concluded that Russia's attacks on Ukraine's energy system are war crimes and crimes against humanity (A/81/440). **Pattern.** The UN Human Rights Monitoring Mission has documented hundreds of Russian attacks on Ukraine's electricity and heating systems and their harm to civilians in winter. **Position.** Russia says it struck military-industrial enterprises, energy and transport infrastructure.

WHAT WE ASK

Ask HRMMU to verify the casualties of 20 November in Kyiv; at the Security Council meeting requested by France, ask Russia what military objective the city's water utility served.

CASE FILE HOW IT HAPPENED

ONE NIGHT: THE BRIDGES, THE WATER, THE LIGHT

Kyiv, a city of about three million people, lies on both banks of the Dnipro; its bridges carry people, trams, buses and supplies between the two halves of the city. On the night of 19–20 November ballistic and cruise missiles struck the crossings and the city's water system.

WHAT IS ON THE RECORD SO FAR

Bridges: the Podilsko-Voskresenskyi was closed toward the left bank in the morning and reopened in the afternoon; the Southern, already struck on 17 November, was hit again and opened one way with weight limits; the Darnytskyi was damaged and its condition was still being assessed (V. Klitschko; city military administration).

Water: a facility of the city water utility was hit; water pressure fell in the Pecherskyi, Holosiivskyi, Sviatoshynskyi, Solomianskyi and Shevchenkivskyi districts (Kyivvodokanal).

Power: outages in parts of five districts and emergency cuts in the rest of the city; across Ukraine nuclear power plants had to cut output and consumers in Kyiv and ten regions lost power (DTEK; first deputy energy minister A. Nekrasov).

Buildings: fires in non-residential buildings in the Podilskyi and Obolonskyi districts and an infrastructure facility hit in the Holosiivskyi district (State Emergency Service).

WHO WAS HARMED

Killed in Kyiv: 7, among them two workers of the water utility (V. Klitschko; Kyivvodokanal).

Injured in Kyiv: 17 — 16 in hospital, 7 of them in serious condition; seven of the injured are water-utility staff (T. Mostepan; Kyivvodokanal).

Elsewhere the same night: 2 killed at the Sknyliv railway station in Lviv, injured in the Kharkiv, Dnipropetrovsk, Kyiv, Vinnytsia, Sumy and Zhytomyr regions (regional authorities).

No children were reported among the casualties in Kyiv. Counts are preliminary and rose through the day.

CHAIN OF RESPONSIBILITY

Ukraine's police and prosecutors document each strike.

HRMMU may verify the casualties for its November update.

The Security Council meeting requested by France is a place to ask Russia to account for strikes on a capital's bridges and water system.

THE RUSSIAN STATE'S OWN ACTS

Russia's standing line at the UN is that it strikes only military facilities (V. Nebenzia, Security Council, 9 Oct 2026).

Russia's Ministry of Defence did not mention the water utility in its statement of 20 November.

RUSSIAN MINISTRY OF DEFENCE · STATEMENT OF 20 NOV 2026

“Military-industrial enterprises of Ukraine and storage terminals ... energy and transport infrastructure facilities in the city of Kyiv ... were hit.”

Interfax.ru, 20 Nov 2026 — translated from Russian

INCOMPLETE: THE STATEMENT LEAVES OUT THE CITY WATER UTILITY, WHOSE WORKERS WERE AMONG THE DEAD, AND THE OUTAGES OF POWER AND WATER FOR CIVILIANS

On the night of 19–20 November 2026 Russian missiles and drones killed 7 people in Kyiv, two of them water-utility workers, injured 17 and damaged three bridges and a water-utility facility; water pressure fell in five districts (Kyiv mayor; Kyivvodokanal).

What the claim concedes: That Russia deliberately targeted energy and transport infrastructure in Kyiv.

FAIR TO SAY

Russia's statement names energy and transport infrastructure; bridges and power facilities were indeed hit.

It does not mention the water utility, where two workers were killed and seven injured.

The counts are preliminary and come from one party to the conflict; UN verification is pending.

CASE FILE THE LAW AND WHAT WE ASK

WATER FOR A CITY IS PROTECTED

Civilians and civilian objects may not be attacked, and every feasible precaution must be taken to spare them. Objects indispensable to the survival of the civilian population, such as drinking-water installations, have special protection.

UKRAINE EVIDENCE HUB
VERIFIED RECORD
NOV 2026

ESTABLISHED — BY BODIES WITH A MANDATE

On the night of 19–20 November 2026 Russian missiles and drones killed 7 people in Kyiv, two of them water-utility workers, injured 17 and damaged three bridges and a water-utility facility (Kyiv mayor; Kyivvodokanal).

The UN Commission of Inquiry concluded that Russian attacks on Ukraine's energy system were war crimes and the crimes against humanity of other inhumane acts, carried out "pursuant to a state policy to deprive the civilian population of electricity" (A/81/440, October 2026).

Russia's Ministry of Defence says it struck energy and transport infrastructure in Kyiv (20 Nov 2026).

No body with an international mandate has yet verified the casualties (as of 20 Nov 2026).

PATTERN — WHAT THE RECORD SHOWS

HRMMU: at least 423 Russian attacks on electricity facilities and at least 74 on district heating between December 2025 and May 2026; loss of power and heat in winter harmed civilians' health and safety (June 2026).

Kyiv's Southern and Northern bridges were struck on 17 November; the Southern bridge again on 20 November (President of Ukraine; Kyiv mayor).

POSITION — UKRAINE'S QUALIFICATION

Russia says it struck military-industrial enterprises, energy and transport infrastructure.

Ukraine's President says all of the targets were ordinary civilian infrastructure.

THE RULES THAT APPLY

Additional Protocol I arts. 48, 51 and 52: civilians and civilian objects may not be attacked; indiscriminate attacks are prohibited.

Additional Protocol I art. 54: objects indispensable to the survival of the civilian population, such as drinking-water installations, may not be attacked.

Additional Protocol I art. 57: all feasible precautions must be taken to spare civilians.

WHAT WE DO NOT KNOW

Which water-utility facility was hit and how long the outages will last.

Whether prosecutors have opened proceedings for this attack.

Whether HRMMU will verify the casualties.

WHAT WE ASK

Cite the record — with its sources. On the night of 19–20 November 2026 Russian missiles struck three bridges and a water-utility facility in Kyiv, killing 7 people, two of them water-utility workers, and injuring 17 (Ukrainian authorities).

Ask Russia to explain. At the Security Council meeting requested by France, ask Russia what military objective the city's water utility served.

Ask the UN to verify. Ask HRMMU to verify the casualties of 20 November and to report on attacks on water and heating systems this winter.

Protect the city. Back air defence for Kyiv and the repair of its bridges, water and power systems before the coldest months.
