

KRYVYI RIH: NINE CHILDREN ON A PLAYGROUND

On a Friday evening an Iskander-M ballistic missile detonated over a residential district of Kryvyi Rih — above a playground, a restaurant and the blocks around them. 20 civilians were killed, nine of them children aged three to seventeen. The UN High Commissioner called it 'an unimaginable horror'. Russia said it had hit 'a meeting of unit commanders and Western instructors' and killed 'up to 85 servicemen'. The restaurant's cameras show a birthday party.

senior officers of the Joint Grouping charged in absentia — a colonel-general, a vice-admiral, a rear-admiral and a colonel [B](#)

SBU / Prosecutor General, 24 Nov 2025

BOTTOM LINE

The UN went to the site. HRMMU visited on 5 April, documented fragment marks on the buildings and the playground, identified each child killed, and heard from witnesses and restaurant staff that a beauty-industry forum was under way and no military was present.

An area weapon over a courtyard. The High Commissioner said the use of an explosive weapon with wide-area effects in a densely populated area showed 'a reckless disregard for civilian life' and may constitute an indiscriminate attack, even on Russia's own version of the target.

Russia's target was filmed. The Ministry of Defence claimed a 'high-precision strike' on commanders and Western instructors in a restaurant. The restaurant's cameras, obtained by France 24, show patrons and staff; the events booked were a beauty forum and a birthday party.

LEGAL QUALIFICATION IN THREE LAYERS

NO MILITARY PRESENCE; POSSIBLY INDISCRIMINATE ATTACK — ESTABLISHED ON SITE (OHCHR / HRMMU, 6 APR 2025)

AREA-EFFECT BALLISTIC STRIKES ON CITY DISTRICTS WITH A 'MILITARY MEETING' CLAIM — PATTERN (KRYVYI RIH, SUMY, APR 2025)

WAR CRIME CAUSING DEATH, BY A GROUP — POSITION (ARTS. 28(2), 438(2) CCU; FOUR OFFICERS CHARGED 24 NOV 2025)

Established. OHCHR (6 Apr 2025): HRMMU visited the site, verified each child killed and found no military presence; the use of an explosive weapon with wide-area effects in a densely populated area may constitute an indiscriminate attack, prohibited under IHL and possibly a war crime. HRMMU (24 Apr 2025): 20 civilians killed including 9 children, at least 46 injured. **Pattern.** Ballistic missiles with area-effect warheads over city districts — Kryvyi Rih (4 Apr) and Sumy (13 Apr 2025) — each followed by a Russian claim of a 'meeting' of commanders and foreign instructors. **Position.** Ukraine qualifies the strike as a war crime causing death, by a group (Arts. 28(2), 438(2) CCU); four officers of the Joint Grouping charged in absentia on 24 Nov 2025.

WHAT WE ASK

Quote the High Commissioner's 6 Apr 2025 finding — site visited, no military presence, nine children — whenever Russia repeats the 'commanders and instructors' claim. Designate Col-Gen Kim, Vice-Adm Peshkov, Rear-Adm Petrushin and Col. Kisedobrev for Kryvyi Rih where not yet listed. Ask the Commission of Inquiry to take up Kryvyi Rih and Sumy as one April 2025 case.

24 Nov 2025	SBU and Prosecutor General: notices of suspicion in absentia to Col-Gen Kim, Vice-Adm Peshkov, Rear-Adm Petrushin and Col. Kisedobrev; 20 killed incl. 9 children aged 3–17, 44 injured incl. 7 children. B — SBU; Prosecutor General, 24 Nov 2025

WHAT THE UN ESTABLISHED ON THE GROUND

The HRMMU team visited on 5 April, the day after the strike. It documented damage from hundreds of fragments on buildings, on the playground's swings and slides, on trees and on the ground — the signature of an airburst over the courtyard — and identified each of the nine children killed.

Witnesses, a representative of the local business association and restaurant staff told the team that dozens of beauty-sector professionals were attending a publicised industry forum at the restaurant shortly before the strike, and that there was no military presence in the area.

The residential area on the evening of the strike. Photo: State Emergency Service of Ukraine · CC BY 4.0 · via Wikimedia Commons

WHO THE DEAD WERE

Nine children aged 3 to 17: among them Tymofii Tsvitok, 3, walking home with his grandmother; three pupils of School No. 41 aged 7 to 9; two 15-year-olds on a date; two cousins in the yard (Meduza, 9 Apr 2025).

Eleven adults, including parents and grandparents in the courtyard. The injured — 44 by the PGO's count, 75 by local authorities' — included a three-month-old baby.

THE PLANNING CENTRE, AGAIN

Ukraine's charge sheet of 24 Nov 2025 names the same level of command as for Hroza and Sumy: the Joint Grouping's chief of staff and its fire-planning and target-intelligence centres.

UKRAINE EVIDENCE HUB

VERIFIED RECORD

OCT 2026

Who	Role in the case	Proceedings	Sanctions · courts
Col-Gen Aleksei Kim chief of staff, deputy commander, Joint Grouping of Forces	Commanded the attack (SBU, 24 Nov 2025)	Notice of suspicion in absentia, Arts. 28(2), 438(2) CCU, 24 Nov 2025; also charged for Sumy (Apr 2026) and Hroza (Jul 2026)	—
Vice-Adm Aleksandr Peshkov deputy commander for fire; head of the joint centre for planning and coordination of fire	Organised the missile strike	Notice of suspicion 24 Nov 2025	—
Rear-Adm Aleksei Petrushin head of the centre for intelligence control and coordination of fire	Prepared and technically supported the strike — target intelligence	Notice of suspicion 24 Nov 2025; also charged for Hroza and Sumy	—
Col. Aleksandr Kisedobrev head of the missile forces and artillery directorate, Joint Grouping	Executed the planning tasks	Notice of suspicion 24 Nov 2025; also charged for Sumy	—
Launching brigade and crew Iskander-M brigade, launch site not published	Fired the missile (unit not stated in the SBU/PGO releases)	Not named in the public releases	—

CHAIN OF RESPONSIBILITY

The investigation's sequence (SBU, PGO, 24 Nov 2025): Petrushin's centre supplied the target → Peshkov's centre planned the strike → Kim commanded → Kisedobrev's directorate executed; the launching brigade is not named in the public releases.

An Iskander-M is released only on the authority of the Joint Grouping. Three Ukrainian charge sheets — Kryvyi Rih (Nov 2025), Sumy (Apr 2026), Hroza (Jul 2026) — name Kim and Petrushin each time.

THE RUSSIAN STATE'S OWN ACTS

The Ministry of Defence's Telegram statement on the evening of 4 Apr 2025 is Russia's only account: a 'high-precision strike' on commanders and Western instructors, 85 dead, 20 vehicles. No name, image or document has followed.

Peskov's general line of 14 Apr 2025 ('strikes solely on military and paramilitary targets') covers both April strikes. Russia has not responded to the High Commissioner's call for an independent investigation.

Sanctions column: only designations confirmed in the designating authority's own record. A dash means none was identified for this case. Peshkov is a different officer from Pinchuk (Hroza).

“A high-precision strike [was carried out on] a meeting of unit commanders and Western instructors [in a restaurant in Kryvyi Rih]. Enemy losses total up to 85 servicemen and officers of foreign countries, and up to 20 vehicles.”

Russian MoD Telegram, as reported by Reuters, 5 Apr 2025

RUSSIAN MINISTRY OF DEFENCE · SAME STATEMENT

“[A] high-precision [strike].”

Reuters, 5 Apr 2025; StopFake, 8 Apr 2025

DMITRY PESKOV · KREMLIN SPOKESMAN · 14 APR 2025 (ON THE APRIL STRIKES)

“Our forces carry out strikes solely on military and paramilitary targets.”

TASS, 14 Apr 2025

THE RESTAURANT'S CAMERAS SHOW A BIRTHDAY PARTY

France 24 published the restaurant's CCTV at the moment of impact: patrons and staff, no soldiers. HRMMU heard from staff and the business association that a beauty-industry forum had just ended. The detonation was over the playground, 70–80 m from the restaurant. Nine of the 20 dead were children; no serviceman has been identified among them by anyone.

What the claim concedes: The launch, the weapon, the city and that the strike was deliberate — 'high-precision'.

THEN THE AIM POINT WAS THE PLAYGROUND

If the Iskander-M is as precise as claimed, its airburst about 20 m from the playground was where it was sent. If it was not, an area-effect warhead was released over a residential courtyard without the precision claimed. The High Commissioner's finding covers both: an explosive weapon with wide-area effects in a densely populated area, showing 'a reckless disregard for civilian life'.

What the claim concedes: That the impact point was chosen.

THE UN FOUND NO MILITARY PRESENCE

HRMMU visited the site on 5 April and reported no military presence; it verified each of the nine children killed. The only account of a military target is the Ministry's, and it has not been supported by a single name.

What the claim concedes: That the strike was Russian.

FAIR TO SAY

Russia's claim concerns the restaurant; the missile detonated 70–80 metres from it, over the playground. Even on Russia's own version, the weapon and its aim point are the issue the High Commissioner raised: an area weapon over a courtyard.

Two Ukrainian state sources describe the warhead differently, and the injured are given as 44, 46+ and 75 by date and definition. No military casualty has been identified by anyone. The notices of 24 Nov 2025 are charges, not findings.

log

AN AREA WEAPON OVER A PLAYGROUND

Kryvyi Rih is the case the High Commissioner chose to state the rule in full: even if there had been soldiers in the restaurant, detonating a wide-area explosive weapon over a residential courtyard may be an indiscriminate attack — and if directed at civilians, a war crime.

UKRAINE EVIDENCE HUB
VERIFIED RECORD
OCT 2026

ESTABLISHED — BY BODIES WITH A MANDATE

OHCHR (6 Apr 2025): site visited; nine children killed and identified; no military presence reported; use of an explosive weapon with wide-area effects in a densely populated area; possibly an indiscriminate attack; call for an independent investigation.

HRMMU (24 Apr 2025): 20 civilians killed, 9 children, at least 46 injured; the deadliest single strike harming children verified since February 2022.

PATTERN — WHAT THE RECORD SHOWS

Area-effect ballistic strikes on city districts in April 2025 — Kryvyi Rih (4 Apr), Sumy (13 Apr) — in the month HRMMU recorded as 46 per cent deadlier than April 2024.

The 'commanders and Western instructors' claim, never once with a name; the same Joint Grouping planning centre charged by Ukraine for Hroza, Kryvyi Rih and Sumy.

POSITION — UKRAINE'S QUALIFICATION

Ukraine qualifies the strike as a violation of the laws and customs of war causing death, committed by a group by prior conspiracy (Arts. 28(2), 438(2) CCU); four officers charged in absentia on 24 Nov 2025.

Ukraine holds that an Iskander-M with an area-effect warhead detonated over a residential courtyard is an indiscriminate attack whatever the claimed target (AP I art. 51(4)–(5)) — an allegation pending adjudication.

THE RULES THAT APPLY

Additional Protocol I art. 51(4)(c) and 51(5)(b): attacks whose effects cannot be limited; attacks expected to cause excessive incidental loss; art. 57: precautions in the choice of means and methods.

Rome Statute art. 8(2)(b)(i) and (iv); art. 28 command responsibility. Killing and maiming of children: a grave violation under Security Council resolution 1612.

WHAT WE DO NOT KNOW

The warhead type — cluster (General Staff) or fragmentation-explosive (PGO) — and the launching brigade.

The final count of injured (44 to 75 by source and date) and of children injured (7 or 12).

The court and hearing dates of the in-absentia proceedings; no verdict as of 21 Oct 2026.

WHAT WE ASK

- Cite the site visit.** Use OHCHR's 6 Apr 2025 finding — HRMMU on site, no military presence, nine children — in statements on children and armed conflict and on the protection of civilians.
- Sanction the planners.** Designate Col-Gen Kim, Vice-Adm Peshkov, Rear-Adm Petrushin and Col. Kisedobrev under EU, US, UK and Canadian regimes for Kryvyi Rih where not yet listed.
- Put it on the children's agenda.** Ask the Secretary-General's Special Representative for Children and Armed Conflict to record the strike in the annual report as a grave violation attributed to the Russian armed forces.
- Settle the warhead.** Independent remnant analysis shared with HRMMU and the Commission of Inquiry, so the hub and the court can show one answer instead of two.
