KYIV, 25 NOVEMBRE 2023 : 75 DRONES LORS DE LA JOURNÉE DU SOUVENIR DE L'HOLODOMOR

Aux premières heures du 25 novembre 2023, jour où l'Ukraine commémore les victimes de la famine de l'Holodomor de 1932–33, la Russie a lancé 75 drones d'attaque Shahed contre l'Ukraine, la plus importante attaque de drones de la guerre jusqu'alors. Kyiv était la cible principale. L'Armée de l'air a indiqué que 74 des 75 drones avaient été abattus ; la chute de débris a blessé cinq personnes dans la capitale, dont un enfant de 11 ans, a provoqué un incendie dans un jardin d'enfants et a privé d'électricité 77 immeubles d'habitation et 120 établissements du centre de Kyiv.

L'ESSENTIEL

A record attack on a day of mourning. The Air Force counted 75 Shahed drones launched overnight from Primorsko-Akhtarsk and Kursk region, plus a Kh-59 guided missile; 74 drones and the missile were shot down. Kyiv was the main target, on Holodomor Remembrance Day.

Debris on homes and a kindergarten. Debris fell in four Kyiv districts. In Solomianskyi it set a kindergarten on fire and smashed part of a five-storey block of flats; five people were injured, an 11-year-old among them.

No UN finding on this night. The UN human rights monitors' November 2023 update does not name the attack. The UN's findings on Russia's attacks on Ukraine's energy system concern the campaign, not this strike.

ENQUÊTE PRÉLIMINAIRE POUR CRIME DE GUERRE (ART. 438(1) DU CODE PÉNAL UKRAINIEN) — PROCUREURS UKRAINIENS, POSITION

Établi. At Tier B the Air Force reports 75 Shahed drones launched at Ukraine on the night of 24–25 November 2023, with Kyiv the main target; the Kyiv City Military Administration counts five people injured, an 11-year-old among them, and damage in four districts. No court and no UN body has made a finding on this attack; the UN monitors' November 2023 update does not name it. **Tendance.** The attack came at the start of a winter of mass air strikes: the UN monitors recorded a 26% rise in civilian casualties in December 2023 after the wave of attacks from 29 December, and later found that Russia's 2024 attacks on the power grid point to breaches of the principles of distinction, proportionality and precaution. At campaign level, the UN Commission of Inquiry (A/81/440, Oct 2026) found attacks on Ukraine's energy infrastructure since autumn 2022 to be war crimes and a crime against humanity. **Position.** Ukrainian prosecutors opened a war-crimes investigation (Art. 438(1) CCU); the hub's inference is an indiscriminate attack on a capital (AP I art. 51(4)–(5)).

CE QUE NOUS DEMANDONS

Ask the UN monitors to verify and report the 25 November 2023 attack on Kyiv. Keep air defence flowing to the cities that drone waves target. Name drone waves on cities, and their timing on days of remembrance, in UN reporting.

CE QUE MONTRENT LES FAITS

The Air Force counted 75 Shahed-131/136 drones launched from Primorsko-Akhtarsk in Russia's Krasnodar region and from Kursk region, and a Kh-59 guided missile. Its commander said Kyiv was the main target. The first count, 71 shot down, was raised to 74 at 11:00. The city administration said more than 60 were downed over Kyiv.

Debris fell in four districts. In Solomianskyi it set a kindergarten and a non-residential building on fire, destroyed part of the second floor of a five-storey block and broke windows from the ground to the fifth floor. Debris also hit the top floor of a high-rise in Dniprovskyi and a four-storey building in Holosiivskyi.

LES VICTIMES

Five people injured, aged 11 to 65: two with cuts to the limbs, three with acute stress reactions. All were treated on site or in emergency rooms; none was hospitalised (KCMA; Prosecutor General's Office). No deaths were reported.

The power cut reached 77 apartment buildings and 120 institutions in central Kyiv (Ministry of Energy); DTEK also counted 16,000 customers without power in Kyiv region, most restored after the all-clear.

CHAÎNE DE RESPONSABILITÉ

The weapon identifies the system: Shahed-131/136 loitering munitions, launched from sites in Russia that the Air Force named.

The launch from two directions and the arrival in waves, changing course, is a planned, coordinated attack, not a stray launch.

Who ordered it and what the aim points were is for the investigation to establish; the hub draws no names.

LES ACTES PROPRES DE L'ÉTAT RUSSE

No Russian statement about the attack on Kyiv of 25 November 2023 has been located; The Moscow Times reported that the Russian side gave no official comment.

Seven weeks earlier, after the strike on Hroza, the Kremlin spokesman said Russia's military 'does not strike civilian targets' (6 Oct 2023) — the general line Russia maintained at the time.

An investigation is not a charge, and a charge is not a verdict.

KYIV FACT-CHECK · WHAT RUSSIA SAYS ABOUT STRIKES LIKE THIS

'RUSSIAN FORCES DO NOT STRIKE CIVILIAN TARGETS'

Russia said nothing about Kyiv on 25 November 2023. Its official line that autumn was that its forces do not strike civilian targets. Set against the record, that line leaves the burning kindergarten and the damaged apartment blocks unexplained.

DMITRY PESKOV · KREMLIN SPOKESMAN · 6 OCT 2023 (GENERAL LINE, NOT ABOUT KYIV)

“We keep repeating: the Russian military does not strike civilian targets.”

The Insider, 6 Oct 2023 (hub translation)

NOT SHOWN FOR KYIV: NO MILITARY TARGET NAMED, A KINDERGARTEN AND HOMES HIT

75 drones Shahed lancés contre l'Ukraine, Kyiv étant la cible principale (Armée de l'air) ; un jardin d'enfants incendié, un immeuble de cinq étages endommagé, cinq personnes blessées dont un enfant de 11 ans, 77 immeubles d'habitation et 120 établissements privés d'électricité (administration militaire de la ville de Kyiv ; ministère de l'Énergie, 25 nov. 2023). En cas de doute, les biens de caractère civil sont présumés civils (PA I, art. 52(3)).

Ce que l'affirmation concède : That a strike on civilian objects would need an explanation — none has been given for Kyiv on 25 November 2023.

POUR ÊTRE JUSTE

The Kremlin statement was made about the strike on Hroza of 5 October 2023, not about Kyiv; it is cited as Russia's general position at the time.

The damage in Kyiv came from the debris of downed drones, by the city administration's account. Debris falls only because the drones were launched at a city; the hub has not examined what the drones were aimed at.

KYIV LE DROIT ET CE QUE NOUS DEMANDONS

A CAPITAL IS NOT A TARGET

Seventy-five loitering munitions sent at a capital of millions at night, in waves, put every district under the flight path at risk. The law requires that each one be aimed at a military objective and that civilians be spared as far as feasible.

UKRAINE EVIDENCE HUB
REGISTRE VÉRIFIÉ
NOV. 2026

ÉTABLI — PAR DES ORGANES MANDATÉS

Tier B: 75 Shahed drones launched at Ukraine on the night of 24–25 November 2023, Kyiv the main target, 74 shot down (Air Force); five people injured in Kyiv including an 11-year-old, a kindergarten set on fire, debris in four districts (KCMA; Prosecutor General's Office).

No court or UN body has made a finding on this attack. At campaign level, the UN Commission of Inquiry found Russia's attacks on Ukraine's energy infrastructure since autumn 2022 to be war crimes of intentionally directing attacks against civilian objects and a crime against humanity (A/81/440, Oct 2026).

TENDANCE — CE QUE MONTRENT LES FAITS

The UN monitors recorded a 26% rise in civilian casualties in December 2023 after a wave of attacks that began on 29 December; HRMMU head Danielle Bell: 'These attacks sow death and destruction on Ukraine's civilians' (16 Jan 2024).

HRMMU found that Russia's 2024 attacks on the power grid point to breaches of distinction, proportionality and precaution, and that the harm to civilians was 'imminently foreseeable' (19 Sep 2024).

POSITION — QUALIFICATION RETENUE PAR L'UKRAINE

Ukrainian prosecutors: a violation of the laws and customs of war (Art. 438(1), Criminal Code of Ukraine). The President: 'Deliberate terror. At the exact time' — the night of Holodomor remembrance.

The hub's inference: at least an indiscriminate attack (AP I art. 51(4)–(5)) — pending an investigation that names the aim points.

LES RÈGLES APPLICABLES

AP I arts. 48, 51(2), 51(4)–(5), 52 and 57: distinction, the ban on attacks on civilians and on indiscriminate attacks, the presumption of civilian character, precautions in attack; art. 51(2) also bans acts whose primary purpose is to spread terror among civilians.

Rome Statute art. 7(1)(k), art. 8(2)(b)(i), (ii) and (iv); art. 28 on command responsibility.

CE QUE NOUS NE SAVONS PAS

The aim points of the drones sent at Kyiv, and the units that launched them.

Whether the investigation has named a suspect.

A UN-verified count for this attack.

CE QUE NOUS DEMANDONS

Verify the night. Ask the UN human rights monitors to verify and report the 25 November 2023 attack on Kyiv, alongside the winter attacks they have documented.

Keep the shield up. Sustain air defence and interceptor supplies for the cities that mass drone waves target.

Cut the supply. Sanction the producers and suppliers of Shahed-type drones and their components under every national regime.

Name the timing. In UN reporting and Security Council statements, name mass drone attacks on cities and their timing on days of national remembrance.
