On 19 November 2025 Russia's Ministry of Defence said its overnight strikes had hit defence-industry and energy facilities and drone storage sites in western Ukraine, and that 'all intended targets were hit and the objectives of the strike were achieved'. That morning Kh-101 cruise missiles had hit two nine-storey residential buildings in Ternopil. By 8 December the police counted 38 killed, eight of them .children. Two claims, the record, and what they concede

الخلاصة

Russia did not name Ternopil. The ministry listed defence-industry and energy facilities and drone storage sites in western Ukraine — none of them in or beside the .two blocks of flats that were hit

All intended targets' leaves two readings. Either' the residential buildings were intended targets, or the .statement that every target was hit is false

جزء من نمط. The UN High Commissioner for Human Rights pointed to 'powerful long-range missiles combined with waves of drones increasingly being used by Russian .forces' (Nov 2025)

SELF-INCRIMINATING OR FALSE: TWO BLOCKS OF FLATS WERE HIT

الأدلة B

The Air Force of Ukraine reports that Kh-101 cruise missiles launched from strategic aviation hit residential apartment buildings in Ternopil (19 Nov 2025). The Ternopil Oblast Police count 38 killed, including eight children (8 Dec 2025); the State Emergency Service 94 injured, including 18 children.

ما يُقرّ به الادعاء: If every intended target was hit, the residential buildings in Ternopil were among the intended targets.

CLAIM 2 · RUSSIAN MINISTRY OF DEFENCE · 19 NOV 2025

defense industry and energy facilities that [Our forces hit]“ supported their operations … [and] long-range drone storage sites ”.in western Ukraine

NOT SHOWN FOR TERNOPIL: NO SUCH FACILITY NAMED IN OR BESIDE THE BUILDINGS HIT

الأدلة

No defence-industry, energy or drone-storage site in or beside the buildings on Stusa Street and 15 Kvitnia Street has been named by Russia or anyone else. In case of doubt an object normally used for civilian purposes, such as a house, is presumed civilian (Additional Protocol I, art. 52(3)).

ما يُقرّ به الادعاء: Nothing about Ternopil — the ministry gave no reason for the strike on the city.

من الإنصاف القول

.The ministry's statement covered the whole night's strikes on Ukraine; the Hub does not assess the other sites it named. The verdict concerns Ternopil

The number of children killed differs between sources: eight in the police count of 8 Dec 2025, seven in some international reports. Injured figures rose .from 37 (10:00, 19 Nov) to 94. Three adults were still missing on 8 Dec 2025

.The Russian statement is quoted in English from The Moscow Times' report of the briefing; words in square brackets are the Hub's

القانون

ثابت (نص المعاهدة): attacks must be limited to military objectives (Additional Protocol I, art. 52(2)); civilians and civilian objects must not be attacked (arts. 51(2), 52(1)).

ثابت (نص المعاهدة): indiscriminate attacks are prohibited (AP I, art. 51(4)); in case of doubt a house or other dwelling is presumed civilian (art. 52(3)).

ثابت (نص المعاهدة): an attacker must take all feasible precautions in the choice of means and methods to avoid civilian deaths (AP I, art. 57).

نمط: the UN High Commissioner for Human Rights pointed to 'powerful long-range missiles combined with waves of drones increasingly being used by Russian forces' (Nov 2025).

Position (Hub): on the record, the strike on two residential blocks with no military object named is an attack directed at civilians (Rome Statute art. 8(2)(b)(i)) or an indiscriminate attack — pending an investigation. No prosecutor's qualification has been located.

LINES TO TAKE

1. "Moscow said all intended targets were hit. In Ternopil the missiles hit two blocks of flats."
2. "38 dead, eight of them children. Russia named no target in the city."
3. "Either the homes were the targets, or the claim is false."

أسئلة وأجوبة

"There was a military facility nearby."

None has been named — not by Russia, which did not mention Ternopil, nor by anyone else. Even near a military objective, an attack expected to cause excessive civilian harm is prohibited (AP I, art. 51(5)(b)).

"Ukrainian air defence caused the damage."

The Air Force of Ukraine identifies the weapon as Russian Kh-101 cruise missiles launched from strategic bombers. Russia itself said all its intended targets were hit.

"It was a response to ATACMS strikes on Russia."

Reprisals against civilians are prohibited (AP I, art. 51(6)). Whatever the motive, the rules on distinction and precautions still apply to every strike.

ما نطالب به
