THE ASK OF MEMBER STATES

- Support the IAEA presence at the Zaporizhzhia plant and the Board's resolutions on Ukraine; fund the Agency's assistance programme.
- Invoke the Moscow Mechanism where a new pattern appears, and cite its reports as expert findings.
- Do not let consensus be used to shut OSCE field work: keep the Support Programme for Ukraine and ODIHR monitoring funded outside the unified budget.
- Raise each attack on a nuclear site and each loss of off-site power at the plant in the Board and the Permanent Council.
