PULSO MENSUAL

OHCHR / HRMMU · PROTECTION OF CIVILIANS · DATA TO 31 OCT 2026

CIVILES MUERTOS POR MES, 2026

Una sola fuente — la Misión de Vigilancia de los Derechos Humanos de las Naciones Unidas en Ucrania, que verifica cada víctima a partir de dos fuentes independientes o de una visita sobre el terreno y señala en cada actualización que las cifras reales son considerablemente más altas. El territorio ocupado y los lugares con combates intensos están en gran medida ausentes de estas tablas.

REGISTRO VERIFICADO
NOV 2026

17,994
civiles muertos desde el 24 feb 2022 [A]
ACNUDH, al 31 oct 2026 · 57.854 heridos

+63%
víctimas civiles, ene–oct 2026 vs. ene–oct 2025 [A]
2,957 killed, 17,218 injured in ten months

372
killed in October 2026 — highest October since 2022 [A]
1,981 injured · +95% on October 2025 (183 killed, 1,021 injured)

55%
of October casualties from long-range missiles and drones [A]
177 killed, 1,108 injured; glide bombs 18%, short-range drones 19%

Rojo = por encima de cualquier mes desde abril de 2022 · ene–mar se muestra como promedio mensual del agregado trimestral · mayo, derivado del total semestral · julio, revisado al alza por el ACNUDH en la actualización de septiembre (286 → 448)

WHERE AND HOW (OCTOBER 2026)

Worst-hit places: Zaporizhzhia (31 killed / 103 injured), Kramatorsk (29 / 124), Sloviansk (27 / 96), Kyiv (25 / 174), Kharkiv (19 / 129). Long-range missiles and drones caused 55% of casualties; glide-bomb deaths doubled from September (92 killed, 331 injured); short-range drones 19%. Casualties in 22 regions and Kyiv city. Kherson region was lower than in previous months (6 / 105). In occupied territory OHCHR verified 12 killed and 18 injured and says the real figure is likely much higher.

POR QUÉ ESTA CIFRA ES INFERIOR A LA DE UCRANIA

OHCHR counts only what it has verified; Ukrainian bodies count what they have recorded. Both are right; they measure different things. This sheet shows the UN figure because it is the one international bodies and most governments will repeat. HRMMU: the first ten months of 2026 saw more civilian deaths than all of 2025. The November update is expected mid-December and will replace this sheet.

QUÉ PEDIMOS

Cite the UN figure with its date; support funding for HRMMU so that verification keeps pace with the 2026 escalation; support renewal of the Commission of Inquiry mandate; raise the +63% trend in every statement on protection of civilians.
